

Width: 20.8 mm, Contact clearance: 11 mm, 0–250 V

Advantages/Benefits

- ▶ Optional equipment with LED, rectifier and/or varistor
- ▶ Easy electrode wiring, simple installation
- ▶ Pressure screw cable seal with strain relief

Design/Function

The cable plug consists of

- a polyamide body with PC-cover and mounting screw,
- a contact insert that can be rotated by 180°
- Tinned brass contacts,
- a gasket seal.

The strain relieving feature and cable seal is provided by a pressure screw with sealing ring.

The terminal screws are easily accessible, when the contact inserts are removed.
The cable outlet is oriented vertically to the plug bottom.

Applications

Plug-in connection for electrical devices and components, especially solenoid valves with lateral tag connectors.
Tag configuration according to DIN 43 650, Form B.
