

i Series Touch Panel Screen Supports Portrait Display

i series touch panel screen supports portrait display. The following steps introduce how to apply this function.

Notice: this function is provided by i series only.

1. This picture shows an example of landscape display on MT8100i;

*	ň							
	1				1	-		
					1.1.1.1.1.1.1.1.1.1.1.1.1.1.1.1.1.1.1.	-		
	_	-					_	
			_	WE!NV	IEW —			

2. Firmware version: 20090527 or later:

system information	×
Network Version	
MT8xxx(S3C) firmware build 20090527 Type :MT8100I	
Ok	

3. Software version: V3.20 2009.07.30 or later:

4. First, setup the HMI by selecting "Enable portrait mode" under System Settings-Firmware setting tag. Then restart the HMI;

System settings 🛛 🔀
Network Time/Date Security History N Firmware setting
Upgrade firmware
Portrait Mode
Enable portrait mode (It will take effect at next reboot)
Cancel Apply OK <-

 Run the EasyBuilder 8000 program and click File/New to create a new project file. Choose i series model name from the "Model" pull-down list and set the "Display Mode" to "Portrait". Click "OK" button;

WE!N	i Series Touch Panel Screen Supports Por	trait Display
	EasyBuilder(Copyright c 2006 Weintek Lab., Inc.)	
	Welcome to EasyBuilder8000. Please select your model.	
	Model : MT6070iH/MT8070iH/MT6100i/MT8100i (480 X 800) - I 💙 Display mode : Portrait 🗸 Use template	
	OK Cancel	

6. A new project file is created as follows:

7. Download firmware to the touch panel HMI. The HMI now displays in portrait orientation.
