

Update the MT8000/6000 OS

MT8000/6000 OS Image version is 20081013 or later, which support using USB disk or CF card to update OS. The update process is similar to downloading project to the touch panel HMI. The following example shows how to update OS by using USB disk.

1. Find the corresponding OS document to the MT8000/6000 and copy it to the USB disk (as shown in picture 1); For example, copy it to the 001 folder that is previously created;
