

How to Decompile the xob file which uploading in the USB Disk

- 1. Upload the program file of the HMI to the USB disk, and then copy it to the PC (or use the file on the USB disk directly)
- 2. Check out the file that was previously copied from the HMI in the file browser. The original file doesn't have extension file name.

3. Add the extension file name ".xob".

4. Run EasyBuilder 8000, select "Tool / Decompile". The "Decompile" dialog pops up.

5. Click "Browse" button, and find the .xob file that has been added extension name in the previous step.

Decompile						×
XOB file name	: C:\Documents	and Settings\Ro	ockengXP\Desktop\	mt8000\001\mt8	000.xob 1 🤇	Browse
Project file name	Open Lookin	001			a 🖈 👓 📼	? 🔀
XOB password		mt8000.xob	D
